Dr Johanna Lynch, a general practitioner who has worked with survivors of trauma and neglect for 10 years, has been reflecting and researching a new way GPs can care for distressed people in their community. In this workshop she will be joined by Dr Joy Parkinson, from Griffith University to present some of her ideas around creating a sense of safety and a map towards healing. She hopes that people will feel 'safe enough' to add thoughts, experience and expertise to the next phase of this research.

We will hear stories, meet others, hear of upcoming events and enjoy afternoon tea (bring something to share if you can). No RSVP required. The workshop is free. Questions: Call A Place to Belong office on 3217-2522 or Damian on 0434-810-652.
